SUMMARY

Driven Software Developer and MCA candidate with strong expertise in C#, ASP.NET Core, and Database Management. Hands-on experience in building full-stack web applications, secure authentication systems, and database optimization. Passionate about solving complex problems through clean code and efficient software architecture.

EDUCATION

- **Master of Computer Applications (MCA)** | Forte Institute of Technology, Meerut (*Pursuing – Expected 2026*)
- **Bachelor of Computer Applications (BCA)** | Forte Institute of Technology, Meerut (*Graduated 2024*)

SKILLS

Languages & Frameworks

C#, ASP.NET Web Forms, ASP.NET MVC, Python, C/C++

Web Development

HTML5, CSS3, JavaScript

Databases

MySQL, SQL Server, ADO.NET, Entity Framework Core

Tools

Git, VS Code, Visual Studio

Others

Data Structures, Object-Oriented Programming

CERTIFICATIONS

Full Stack Development Certification, DICS

C# (Basic) Skill Certificate, HackerRank

ACADEMIC PROJECTS

Online Voting System

- Built a role-based online voting system (ASP.NET Core MVC, EF Core, SQL Server) with secure authentication, one-vote-per-user database constraints, and an admin panel featuring Chart.js-based result visualization.

Online Shopping Management System

- Developed a Web Forms application using ASP.NET (C#) for a dynamic e-commerce catalog and secure admin login authentication.
- Architected the ADO.NET data access layer to safely process CRUD operations for products, categories, and customer orders.
